Used 2017 ford mustang gt convertible for sale

Sometimes what you don't know can't hurt you, but that's not the case when buying a used car. As an independent vehicle history provider, at CARFAX we've made it our mission to tell you everything you need to know by uncovering as many events as possible from the previous life of a used car. Our primary goal is to help you get to know your next car from the inside out before deciding to make an investment that will be part of you and your family's everyday life. We believe your next car shouldn't be hiding anything from you.CARFAX Vehicle History Reports contain over 28 billion historical records from 20 European countries, the US and Canada, which are updated daily with new information.Even if you live in a country we don't collect vehicle data from, it's still always worth checking the Vehicle Identification Number without obligation. The used car import and export market is booming and many owners would be surprised to find out exactly what happened to their vehicle during its previous life abroad.Privacy for Customers — Transparency over VehiclesLet's be clear: Although we strive to find every detail of a vehicle's life so far, we are focused only on the vehicle's history, and do not collect any information on previous owners. The information we provide relates solely to the vehicle, its odometer reading, any accidents that have been covered up, where the vehicle comes from and much more — it never gets personal. We've uncovered irreparable damage several times in the past, but other times our vehicle history checks draw a blank — and sometimes that's actually a good thing.Second Hand — Not Second Best Did you know that considerably more used cars are sold than new cars? We think this second-hand system is nothing short of fantastic. However, it goes without saying that it gives rise to different methods and tactics: Some sellers will disguise a car that's been in an accident under a fresh coat of paint, tamper with the odometer or conceal theft. This is one of the less appealing aspects of buying second hand. Our goal is to establish trusting relationships between buyers and sellers, since this is the best way to help customers make the right decision. Your new car should be reliable and make you feel safe, as well as make you feel like you haven't paid too much.But more than anything else, we don't want you or your family unknowingly sitting behind the wheel of a vehicle that isn't 100% safe. This is why we strive to take these vehicles off the road, which not only makes the used car market safer but our streets safer too.CARFAX — 35+ Years of Experience in Vehicle Histories CARFAX was founded in the US in 1984 and expanded into Europe in 2007. Around 100 team members spread across six European offices process vehicle information from 22 countries. Fostering strategic partnerships with registration authorities, law enforcement agencies, government departments, insurance companies, inspection centers and numerous other leading companies around the world has enabled us to compile a unique international database for vehicle histories. We use this database to help make the used car market more transparent. We give everyone in the process of buying a used car access to what is currently the world's most comprehensive source for vehicle history reports, and is growing day by day.We remain neutral and independent despite our partnerships — our sole purpose is help customers make an informed choice and ensure their safety and the safety of their family. This includes never collecting any personal details — we do not accept any PII from data sources amongst the information we provide about a vehicle. We ensure that data protection laws are observed at all times. Furthermore, we always collect our data in compliance with legal and regulatory frameworks — in all the countries in which we are active. We expressly distance ourselves from illegal activities such as data theft, scraping and hacking. 32 matches View all 24 photos 1/24 Used 44,544 mi. \$22,690 Home Delivery Virtual Appointments AutoNation Honda O'Hare 16 mi. from 60606 16 mi. from 60606 Show details Ext. color: Ruby Red Metallic Tinted Clearcoat Transmission: 6-Speed Automatic Drivetrain: Rear-wheel Drive AutoNation Honda O'Hare review Service advisor Yousef Alwari was very professional and helpful.
